

# **WASCANA NATIVE PLANT GARDEN**

The Sunflower Girl Mural was a project of the GTCA & the previous building owner.

It was designed & created by Paul Archer, a talented artist whose works can be found throughout the world. The GTCA Mural Project was funded by the GTCA, CRD, Saanich and the generous donations of community members.

Thank you to those whose vision & joy made both these projects possible!

Satinflower

Spring Gold

Farewell to Spring

Western Buttercup

Sea Blush

Monkey Flower

This native plant garden is an ongoing collaboration between the Gorge Tillicum Community Association and the current building owner. Initial funding was provided by the UVic Map Shop.
